To HR Department,

Please find enclosed a copy of my resume. I hope you will find my skills and past achievements desirable with respect to applying for the position of Full Stack Developer. If you have been looking for a person that takes initiative, looks for creative and innovative solutions, and consistently makes positive contributions to the work environment, then you will be interested in what I have to offer.

I have been actively working for the last 17 years as a freelance Full Stack Developer via my company Resonance Media + Design. Having worked with a large number of Canadian businesses to build custom web sites and web application solutions, I feel that I have a wide range of experience in the web development arena. In addition to my skill-set, these are the most important aspects of work ethic:

Solution-focused

I'm always looking for new and innovative ways to solve project challenges.

Life Long Learner

I love learning new skills and strategies, and how to best balance cutting-edge tech with proven performance.

Dedicated

I am always committed to finding a way to get the project done, no matter what the obstacles.

Thank you for your consideration!

Todd McIntosh
